Gentlemen:

ALL SALES ARE SUBJECT TO THE CONDITIONS SET FORTH ON REVERSE SIDE OF THIS SHEET

QUOTATION NO. 0196
BIDS APRIL 24, 1979

Thanks very much for your inquiry to bid and we are pleased to quote on materials as shown below. We are quoting upon furnishing all materials quoted upon and segregation cannot be made of the materials. We are quoting upon the Fastite Class 22 cast iron 4" and 6" pipe predicated upon our available stock, since we no longer manufacture this material. At the current time we have in stock 940' of 4" cast iron Class 22 cement lined, with 6" pipe - 300' in stock cement lined, and 340' in stock coated. We are also offering this quotation to you based on furnishing the available stock of cast iron pipe, with the balance as ductile iron. However, at the time your order would be placed with us and the cast iron pipe has been exhausted, then of course we will advise you we will not be able to furnish the material and you can take another option, perhaps all ductile pipe. If we do furnish the cast iron piping, we would have to also furnish additional ductile iron pipe needed to fill out truckload.

Approx.

360' - 4"	AMERICAN Fastite ductile iron pipe, nominal 20' L.L. Class 51	ft. \$3.24	1,166.40
540' - 6"	ditto	ft. 4.45	2,403.00
540' - 8"	ditto	ft. 6.14	3,315.60
			6,885.00
360' - 6"	AMERICAN Fastite cast iron pipe, nominal 20' L.L. Class 22, subject to availability (see above paragraph)	ft. 4.73	1,702.80
180' - 4"	ditto	ft. 3.55	639.00
		2,341.80	9,226.80

2--City of Fort Wayne, Indiana April 18, 1979

All of the above pipe are based upon furnishing wedges for conductivity.

Prices shown are net to you, f.o. b. trucks our foundry in Birmingham, Alabama and include current truckload freight to Fort Wayne, Indiana at the current rate of \$28.00 per ton. Any increase in freight at time of shipment will be for your account. Prices shown do not include any present or future Federal, state or local taxes.

Terms are offered as 1/2 of 1% for payment in 10 days; net 30 days. Any discount would be on the net f.o.b. foundry value exclusive of sales tax and freight charges. In the event buyer fails to make payment in accordance with the terms of this agreement, the account shall be deemed to be delinquent and a service charge of 1-1/2% permonth will be made on the unpaid balance.

Please consider this proposal automatically withdrawn if not accepted by your purchase order or letter of intent within 30 days from bid date.

Prices shown in this proposal are minimum prices and are based on our current costs. Due to the volatile behavior of the metals markets in recent times, especially steel scrap, and since the prices of these basic raw materials so greatly affect our costs, we must provide for increasing our prices based on an indicator of this market. Please consider all unit prices listed as being based on " No. 1 Heavy Melt, Composite Price, Philadelphia, Pittsburgh, Chicago" of \$102.50 per gross ton as reported in the April 16 edition of "Iron Age" magazine. If at the time of shipment the Iron Age Composite price is higher than the figure listed above, all unit prices will be increased on the basis of \$1.00 per net ton for finished material per each \$1.00 per gross ton increase in the Composite price as reported in the most recent edition of Iron Age prior to shipment.

Based upon current shipping promises we could make shipment in approximately 2 to 3 weeks; however, see first paragraph above regarding the Class 22 cast iron pipe availability. Thanks for the opportunity of quoting and hopefully may be of service to you with these materials.

Yours very truly, "
